

NOTICE OTIS

City's hot and dirty when the summer rolls a - round.

People get so mean you keep your eyes right on the ground.

Pretty soon you're look-ing for an-oth-er place to go

When it gets that bad there's one thing that I know.

I will no-tice O-tis and soon my aches will mend; It's just ten miles out o

no - where a half mile round the bend; — No-tice O-tis and

soon you're goin' to find There's a wel-come wait-ing for you there to-

night. — There's a wel-come wait-ing for you there to - night!

The city's hot and dirty
 when the summer rolls around
 The people get so mean
 You keep your eyes right on the ground.
 Pretty soon you're looking for another
 place to go
 When it gets that bad, there's one thing
 that I know.

Chorus:
 I will notice Otis, and soon my aches will
 mend
 It's just ten miles out of nowhere, half
 mile round the bend
 Notice Otis, and soon you're going to find
 There's a welcome waiting for you there
 tonight.

There are fancy towns and bigger towns
 But they're just all the same;
 To me there's nothing fancy
 Where no one knows your name
 When you're looking for a smile that says
 It's here that you belong
 Notice Otis and you never will go wrong.

(Chorus)

There aren't too many secrets in a town
 that's quite this small
 But the good life that you'll find here
 is the biggest one of all
 So if you find someone who looks as if
 they need to get away
 There's a phrase you should remember
 how to say.

(Chorus)
