

Building a Backyard Wildlife Habitat: A Gardener's Approach

Presented at the Otis Library and by Zoom

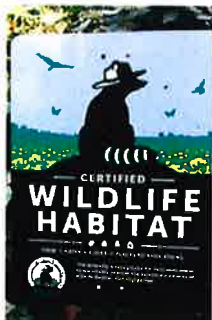

THURSDAY, MAY 28, 6:00 PM

**You can make your yard
more enjoyable
while you do your part to
restore natural habitat.**

*Let's attract birds, butterflies,
and other beneficial wildlife to a
more sustainable home landscape.
It all starts with what, where
and even how you plant.*

**This program will help you
qualify your yard as a
Certified Wildlife Habitat by
the National Wildlife Federation**

*"Jam-packed with useful information,
beautiful visuals, such a positive slant
on what we as individuals can do
to make a difference in natural habitat
and protection of our local species."
